Project

SKILL SWAP – Skill Exchange App | UI/UX Design ([Link](#))

Problem:

People lack affordable ways to learn new skills, while skilled individuals don't have a simple platform to share their knowledge, creating a gap between learners and providers.

Process:

Conducted basic user research, created personas, and designed wireframes and high-fidelity prototypes using Figma with a focus on simple and intuitive user flow.

Solution:

Designed a mobile app that connects learners and skill providers through features like profiles, skill listing, matching, chat, and session booking, ensuring a clean and user-friendly experience.

Outcome:

Created a simple and accessible platform that improves how users connect, learn, and share skills.
